MR. STICKNEY DEAD.

MONUMENTAL CHURCH'S BELOVED RECTOR BREATHES HIS LAST,

SADNESS SPREADS OVER HIS PEOPLE.

Rev. Fenner Satterthwaite Suckney, the much-loved minister and rector of Monumental church, is dead.

His spirit took its flight at half-past 3 o'clock this morning, while he was surrounded by his immediate family and many devoted friends. He was ready to go, and during his last hours was Bishop Newton, he had every influence not concerned about himself; he was only solicitous of the spiritual welfare

Mr. Stickney's sudden death comes in the nature of a terrible shock to those mental he accepted, came to Richmond, who knew him and loved him best. To almost every member of Monumental church it is a personal bereavement, while to the community at large it means the loss of a man whose place cannot be easily filled.

No minister of the Gospel ever grew upon his people or more securely fastened himself in their hearts than has Mr. Stickney during his short residence

thronged with friends and admirers of Mr. Stickney, anxious to learn his condi-tion and to express their sympathy for the family. Persons of all denominations called, attesting the high esteem in which Mr. Stickney is held here.

Mr. Stickney was, as was told in yes-terday's Dispatch, taken sick on Satur-day last, but was not thought to be in any danger until Thursday, when he manifested a most alarming heart trouble. Since that time but little hope had been entertained for his recovery. A LOVER OF MEN.

It was truly said of him by a promi-nent minister of this city last night, a clergyman of another denomination, who had known Mr. Stickney all his who had known the belove of men. Every characteristic of the beloved rector showed that this was true. He was not the minister who kept himself shut up in his study for days and days studying a line of theology or preparing a set sermon of alarming length; he was al-ways on the go, doing good among men and women, and showing them the way to Christ. By reason of this he always went into his pulpit filled with fresh spiration gleaned among highways and hedges, and his sermons were the pure outpourings of his gracious heart and

Mr. Stickney never read a sermon. His was to select his text, think upor and pray upon it all the time, step here and there as an incident applicable to occurred to his mind, or as an idea cam to him, to jot it down. His voice was musical and resonant, and his delivery graceful and easy. He was tall and commanding in figure, and looked espepially handsome in his robes.

STIRRED UP THE PEOPLE.

Mr. Stickney came to Richmond nearly three years ago, having accepted the pastorate of Monumental church. He at once won the favor of not only his own congregation, but of hundreds beold Monumental could hardly hold the large crowds which poured out to hear him preach. His discussions were eloquent in their simplicity and were fraught vith a freshness and charm which made them most impressive and interesting. The catholicity of his views, his open and earnest treatment of all questions his sympathetic nature, and his powers of reasoning combined to make him an expounder of the Gospel of Christ whose ability was recognized by all who heard Mr. Stickney's congregation grew larger and larger, the old church grew in numbers, and otherwise, and instead of languishing, she proudly held her position among the most important churches this city to install a vested choir in his

The deceased probably preached more in churches of other denominations than his own than any Episcopal clergyman South. He loved to commingle with God's people, no matter where the were, and for this reason he was esteemed denominations.

KIND TO YOUNG MEN.

Mr. Stickney's greatest forte was his ability to reach young men. He was so easy of approach, and so gracious and kind, that he was always comforting some young man or young woman, suggesting something for their good, without ap-parently realizing what he was accom-plishing. The boys who were not always at church on Sunday, or who had other little faults, could go to him-and many of them did go to him-and find solace. Mr. Stickney was an untiring worker among the sick. He did not regard creeds or religions, but went where ever his services were needed. Those who have known him in this capacity ill not leave his praises unsung. his death, a good man has gone to his reward—a rich and sweet reward, which

SKETCH OF REV. MR. STICKNEY. Rev. Fenner S. Stickney was in the 35th year of his age, having been born in Greensboro', Ala., June 5, 1860. He was the son of Joseph Bryan Stickney and his wife, Martha Satterthwaite Stickney, After the war Mr. Stickney, the father, moved his family to Eastern North Curolina, locating near Littleton. He enalso for many years a merchant. Young Fenner spent his boyhood days in and around Littleton, but as he grew up he determined to study for the ministry. After receiving a plain education in the country schools he was sent to the Episcopal High School, at Alexandria, Va., where he studied for a couple of years, soing thence to the University of the South, at Sewance, Tenn., und subse-quently to the University of North Caro-ina. Having passed through these institutions, young Stickney went to New Seminary of that city, from which he graduated with distinction in 1886. For missionary work in New York city,

ORDAINED BY BISHOP LYMAN.

Mr. Stickney was ordained to the ministry about seven years ago by the late lamented Bishop Lyman, of North Carolina, in the Episcopal church at Warrenton, N. C., and for awhile was engaged in diocesan missionary work in several counties in the Old North State. At the solicitation of the late Bishor At the solicitation of the late Bishor Lyman, he declined a call which he re-ceived to Sag Harbor, Me. He was eminently successful in his missionary work, and the influence of the church spread rapidly under his teachings. Rev. Mr. Stickney organized, built, and took charge of St. Andrew's church, in Greensboro', N. C., which he served as rector with distinguished ability and success. It was while he was laboring there he received a call to St. Peter's church, Charlotte N. C., to succeed Hishop Cheshire, which he accepted. At Charlotte Mr. Stickney endeared himself to all his parishioners and to the people of that city generally. When he was called to Monumental church's rectorate to succeed the late used upon him to remain at St. Peter's church, Charlotte, but he felt that the field for his talent and labor was in

and took up his labors as the rector of that historic church. Soon after attaining his manhood Mr. Stickney married Miss Elizabeth Gaylor, daughter of a prominent farmer of Beau-fort county, N. C., who, with one little son and one little daughter, survive him.

WHEAT VALUES TUMBLE.

They Are Three Cents Below Thursday's High Point.

NEW YORK, August 13.-Wheat values to-day tumbled 2 cents from last night's close, and 3 cents from yesterday's high point-3-4 cent for September. The decline was attended by a heavy unloading of long wheat. It piled into the market from all quarters, influenced by weakness abroad, particularly at Paris, where flour prices broke 75 points from last night. The best traders here were prepared for the decline, but the rank and file of the bulls opposed it vigorously, and even succeeded in forcing September wheat at the opening to 90. It was use less, however, for with unsatisfactory news from abroad, and the weakness due to loss of the bull lead, the prices declined, and the weakness continued right.

ADDRESS TO THE POPULISTS. Chairman Burke Urges Rejection of

All Fusion Propositions.

ST. LOUIS, MO., August 13.-A special to the Republic from Dallas says: ton Burke, who at the national conference of Populists at Nashville, Tenn., July th, was appointed chairman of the National Organization Committee created at the conference, to-day issued a lengthy address to the Populists of the United States. He reviews the origin and organization of the party, naming the abuses which led dissatisfied elements of the old parties to create a new one, and, coming to present conditions, declares that "the trusts, the monopolies, the corporations, the moneyed interests of the country are organized. Their strongth is concentrated into the action of one man; hence their power, their success. If the People's party would hope to succeed, they must organize, they must unify, they must concentrate their strength. We are confronted to-day by obstacles and enemies within and without." 4th, was appointed chairman of the Na-

strength. We are confronted to-day by obstacles and enemies within and without."

After reviewing the action of the conventions at Omaha and St. Louis, and deploring the events of 1856, the address continues as follows:

"As chairman of our Organization Committee, I urge Populists to avoid, repudiate, reject, all fusion with the Democratic or the Republican parties. Repelevery overture of these enemies to the common people. I suggest that throughout the entire country, wherever there are two or more Populists in a ward, precinct, or township, they go to work at once, persistently, to perfect a local organization in their midst. Press the work until you shall have secured a compact organization in every county in your State. If your State chairman is not in sympathy with the policy declared at Nashville, select one who is. In those States where the chairman and national executive committeemen are in harmony with the policy declared at Nashville, the national organization committeemen will aid them in every way possible in strengthening the party organization. In this way an enthusiasm can be developed that will sustain no defeat. The founders of the country bequeath to you peace and liberty. Preserve and perpetuate it."

Athletic Union and L. A. W. Alliance
PHILADELPHIA, August 13.—A new
alliance between the Amateur Athletic
Union and the League of American
Wheelmen has just been signed, and will
go into effect at once. The alliance was
prepared by, and was the result of a
conference between Howard E. Raymond,
ex-chairman of the Racing Board, League
of American Wheelmen, representing
President Potter, of the League of American Wheelmen, and John W. Kelley, Jr.,
representing President McMillan, of the
Amateur Athletic Union.

The signing of this alliance silences the
reports of ill-feeling and probable war
between these two athletic bodies. It is
much stronger than the old one, and
many points that caused trouble in the
old alliance are now clearly set forth.
The now alliance strengthens both organizations. Each organization will respect and enforce all penalties of suspension for disqualification.

The Funeral of Canovas.

MADRID, August 13.—The funeral of tenor Canovas del Castillo was a touch-ne and solemn ceremony. All the troops

which the cortege moved, and the public buildings, embassies, consulates, and clubs were heavily draped with crepe. More than a thousand wreaths were deposited in the death chamber.

A peculiarly poignant scene ensued as the Duke of Solomayor, Marshal Martinez de Campos, Marquis Fazo de la Merrze, and the other pall-bearers lifted the coffin. Senora Canovas, in a clear tone, said: "I desire that all should know I forgive the assassin. It is the greatest sacrifice I can make, but I make it for the sake of what I know of my husband's great heart."

MANY BUYERS COME.

VISITORS MUCH PLEASED WITH THE RICHMOND MARKETS.

MANY PROPHETS OF PROSPERITY.

Chairman Morris Thinks the Success Is Brilliant-New Faces Greet Our Jobbers and Manufacturers-There Will Be Other Excursions.

The cry is "Still they come." Buyers from North and South Carolina, from Old Kentucky, from Alabama, and West Virginia, from Georgia, Tennessee, Florida, and Louisiana have in-

vaded the city. The registers of the hotels yesterday bore witness to the success of the movement undertaken by the Chamber of Commerce to foster the trade of the city, and the wholesale houses, the manufacturers, the commission merchants, and other business concerns of the city have recognized the substantial, penclits to be derived from the plan so successfully inaugurated last Wednes-

Chairman Morris estimated the num Chairman Morris estimated the humber of those who had taken advantage of the special inducements offered by the Chamber of Commerce up to yesterday evening to be 150, and this is probably a conservative estimate. He had received complaints from Rockingham, Reidsborough, and Monroe, he said, that the Atlantic-Coast Line had failed to put the excursion tickets on sale, but that neglect had been remedied, though they were on sale twenty-four

nours later at these points.

That there will be other excursions goes without saying. The expense of this first undertaking has amounted to little more than \$500, and a substantial balance goes forward to the next, which Mr. Morris thinks will be run about October 1st, when some stronger inducements will be offered in the way of entertain-

THE BUSINESS REVIVAL.

Every City Reports Trade Increase and Bright Crop Prospects.

Every City Reports Trade Increase
and Bright Crop Prospects.

NEW YORK, August Iz.—Messra. R. G.
Dun & Co.'s weekly review of trade tomorrow will say: Every city reporting
this week notes increase in nearly ali
branches of trade, and bright crop prospects. The great change in business is
emphasized by the presence of a large
number of buyers from all purts of the
country, by their statement of the situation at their homes, and more forcibly
yet by the large purphases they are
making. But the cusiomary signs of
prosperity are not lacking. The strong
rise in stocks, the growth of bank clearings and railroad earnings, the heavy
speculation in many preducts, but, most
of all in wheat, have made the week one
of surpassing interest, even to those who
best remember the upward rush in 1872.
At the principal clearing-houses throughout the country, paymeats in July were
for the first time slightly larger than in
1802, and II per cent. larger last year. In
the first week of August they were 7.7
per cent. larger than in 1892, and 28.4 per
cent. larger than last year, and in the
second week of August they were 17.9 per
cent. larger than last year, and in the

exports (flour included) have been in the same two weeks, 6,114,021 bushels, against 3,331,313 last year.

Even the demand for corn, by greatly exceeding that of last year, shows that foreign anxieties are serious, for 5,519,125 bushels have been exported in two weeks from Atlantic ports, against 2,511,428 last year. The price has advanced 1,12 cents, notwithstanding enormous stocks being brought over.

The urgency of French buying of wheat, reports that Russia will stop exports in order to keep supplies for itself, and continued shipments from the Pacific countries usually having a surplus, make even the largest estimates of probable supplies not too great for the possible demand. In all the great industries, a large demand for products appears with strong speculation in materials and intermediate products. In the iron and steel branches, the starting of many works, after settlement of the wages question, keeps the price low, and even depresses some, but the fact that the demand is growing leads to heavy purchases of iron-ore-200,000 tons at Cleveland in a week-and of billets, 40,000 tons, while concessions recently reported in pig-iron have ceased. The outto heavy purchases of iron-ore-220,000 tons at Cleveland in a week-and of billets, 40,000 tons, while concessions recently reported in pig-iron have ceased. The output of furnaces during August was 165,785 tons, against 161,061, July 1st, and the decrease in known stecks unsold indicates a consumption for the two months past averaging 181,000 tons weekly, which is more than in the same months of 1852, though below the greatly increased capacity of the works now. Sales of tin are moderate; of copper, to American consumers, large, it is said, at II cents for lake, but heavy sales of tin-plates are bringing in slightly better prices.

All textile industries are encouraged by a greatly improved and really large demand for goods, which causes many to advance in price. With production much curtailed, stocks of cotton goods are rapidly declining, and in woollens, udvances have been made in clay worsteds, and mixtures, flannels, and Middlesex suitings. Speculation in wool continues, with prices about I cent higher, but sales of 22,49,800 pounds in two weeks show the willingness of some holders to realize.

WIDESPREAD REVIVAL

Bradstreet's to-morrow will say: Evidences of widespread revival in demand for merchandise and other products have become so numerous as to compel general recognition. The press has, therefore, ceased discussing whether trade has really improved or not, and has begun measuring the volume of business. compared with preceding periods.

A buoyancy of feeling has appeared among buyers and sellers at New York, Baltimore, Chicago, St. Louis, and Kansas City, where the interior merchants have thronged this week, to an extent the like of which has not been seen for several years. Merchants are buying drygoods, clothing, shoes, groceries, and the like of which has not been seen for several years. Merchants are buying drygoods, clothing, shoes, groceries, and fancy articles far more freely than at any time since 182. Crop conditions have improved at the South and Southwest, and merchants there are encouraged.

Southern lumber-mills are not able to keep up with orders, and innumerable small consumers of fron and steel throughout the Central Western States are buying raw material as they have not done before for years. A nominal advance of 75 cents a ton for steel billets is more than a feature, as it means the confidence of the makers in an early revival of the demand for Iron and steel, which has been so long delayed. Wheat scored an advance of 7 cents, on continued heavy exports and a tendency to decrease estimates of the size of the domestic crop. Wool is higher, on speculative holding, and cotton yarns have advanced again. Hides and southern lumber are up, as are wheat, flour, Indian corn, and oats, and last, but not least, printcloths, the market for which has been so long depressed. Prices for sugar, coffee, lard, and petroleum remain unchanged, while pork is almost the only important product quoted lower than last week.

important product quoted lower than last week.

Exports from both coasts of the United States and Montreal this week aggregate 4.490,519 bushels, an increase over last week of more than 1,100,000 bushels, and, compared with shipments in the same week a year ago, of 1,655,000 bushels.

The world-wide character of the demand for our wheat and flour is Illustrated by the exports from both coasts of this country to such far-off and infrequent cities as Rio de Janeiro, in Brazii; Callao, in Peru, and Surabaya, in the Island of Java, not to mention heavily increased shipments to Europe, China, and the East. The total exports of Indian corn aggregated 3,275,620 bushels, against 3,223,000 bushels last week, 2,367,000 bushels in the same week a year ago, 944,000 bushels in 1894, and 1,734,000 bushels in 1894, and 1,734,000 bushels in 1894, in the United States this week, 240 last week, 258 in the second week of August, 1894, and 208 in the like week of 1893.

STRIKE MARCHES STOPPED.

Narrow Escape from Serious Trou

ble, Though-First Bloodshed. PITTSBURG, PA., August 13 .- Injunc tions by the County Court have put a stop to marches by the striking miner against the New York and Cleveland Gas-Coal Company, for a time at least, But in the execution of the injunction the Sheriff and his deputies narrowly escaped precipitating serious trouble. As it was, the first blood of the strike was shed. Henry Stewart, one of the Sheriff's deputies, struck Jacob Mott, a drummer of the McDonald Band, with the edge of of the McDonald Band, with the edge of a brass horn, and cut a severe gash above the eye. The sight of the blood wrought up the 1,000 idle miners to such a bitch that a desperate conflict was imminent. The deputies also were excited and noisy. The strikers were jeering and yelling, and urging a further rush down the road. In that crowd there were enough angry strikers to annihilate four times the force of officers on the ground.

Captain Bellingham, Sheriff Lowry, Chief-Deputy James Richards, and Superintendem De Armitt were the only cool Chief-Deputy James Richards, and color-intendent De Armitt were the only cool men in the assemblage. To them, and particularly to Captain Beilingham, be-longs the credit of avoiding a riot. When Bellingham saw there was danger of his men's getting beyond his control, he commanded a halt, and addressed himself men's getting beyond his control, he commanded a halt, and addressed himself to the task of restraining the more belilgrent. So well were his efforts directed that he soon restored comparative order. Sheriff Lowry had a difficult task to perform, but he handled it well, and his coolness and good nature did much to neutralize the bitterness and strife invited by the behavior of his subordinates. The strikers finally retired and marched back to their camp. There were several other brushes with the deputies, but no actual collision occurred.

After the miners returned to camp the officers held a conference with their atterney, and he advised the men to quit marching until the court had heard the argument next Monday on the bill in equity brought by the New York and Cleveland Gas-Coal Company, as it might infure their case if they were brought up for contempt before the court. President Dolan then issued orders that no marches should be made on any of the mines of the New York and Cleveland Gas-Coal Company until further orders, although marches may be made against other polaces. In place of the marching, massmeetings will be held and speeches made, as a means of keeping the miners of the company from going to work.

MISTAKE IN WEST VIRGINIA.

MISTAKE IN WEST VIRGINIA. FAIRMONT. W. VA., August 13.—The merators of the Fairmont region made a most mistake by not serving Judge Jack-

son's injunction on the labor leaders who addressed 600 strikers at Boggs Grove, near Monongha to-day. The meeting was an enthusiastic one. To-night the same speakers addressed a large meeting at this place. This morning some one nurdred of the Monongha men were at work. STRIKERS RETURN TO WORK.

STRIKERS RETURN TO WORK.
CINCINNATI, O., August 13.—A special
to the Commercial Tribune from Evansville, Ind., says: The miners at Woolley's,
Gough's, and Nestor's mines, on the Louisville. Evansville and St. Louis road, a
few miles above this city, went back to
work to-day. They said they were loyal
to the cause, and were willing to remain
idle till the big strike was ended, but
when they learned there was a partial
resumption of the mines in this city, they
decided to work themselves.

AMERICAN TOBACCO IN CUBA. No General Order for Its Release-

Spain "Doing Right," Though. WASHINGTON, August 13 .- So far as is known at the State Department, there has been no general order issued by the Spanish Government for the release of American tobacco held in Cuba for ex-port to the United States, under the prohibitory rule of Captain-General Weyler. Each case is being treated on its merits, and the only general order issued relates to the evidence that must be produced by the American owner of the tobacco, such as proof that the contracts for delivery of the tobacco were actually made prior to the issue of The Ariel Club, of Baltimore, won the the prohibitory rule; the dates of the various steps in the transaction, and exfirst of the former by a half-length, and planations of the reasons why the to-bacco had not been shipped before. In some cases there has been considerable delay in securing the release of the to bacco, owing to the fact that this evi-dence has been sent to Madrid, instead of to Habana, but generally, it is said, the Spanish Government is treating the applications with proper attention.

So many places of resort ar predominant in our minds that we know not hardly where to go. Few have no heard of the "Land of the Sky," tha wonderful mountain region of Wester North Carolina and East Tennes which bears such a noticeable resembla to the Swiss Alps that it is often term by those who have viewed them "The Switzerland of America." scenery of this region in beauty and grandeur cannot be surpassed by any thing east of the Rocky Mountains Winding rivers, splashing torrents, lofty peaks, fragrant woods, luxuriant valleys fine hotels, and a cordial welcome gre-one everywhere in this section. In the midst of this modern Eden stands "Ash ville," lifted, as it were, over two thousand feet above sea-level on a lofty pla teau, from which one can view the sur-rounding peaks and lowlands for many miles. Mountain breezes, laden with the fragrant odor of balsam forests, blow perennially. Below rushes on the windng French Broad river, which from the height looks like a silver ribbon, winds through the valley below. where around Asheville one is greeted with constantly increasing evidences of nature's lavish gifts to this wonderfa place. But best of an thick we inhale exhibitating oxygen, which we inhale rayenously. The climate of Asheville has rayenously. The climate of the pulmonar henefited many suffering with pulmonary trouble, and is widely renowned for its healthfulness. Near Asheville is "Biltmore," the princely estate of Mr. Var derbilt, who travelled the world over an at last settled here, and the mansion h has erected here rivals the palaces Europe in grandeur. On account of altitude and southern location, Asheviji is not visited with extremes of heat cold, which makes it an ideal resort for all the year 'round besides the summe To give a clear description of this bea tiful spot is something that the pen of best writers could hardly do justice to.

MANY MEN INJURED.

FIGHT BETWEEN PEOPLE OF TWO ILLINOIS TOWNS.

WOODMEN OF THE Headquarters of This Order the

Bone of Contention-Rock Islanders Invade Fulton and Are Given a Warm Recention.

FULTON, ILL., August 13.-The fight between this town and Rock Island over the headquarters of the Woodmen of America culminated to-day in a fight, in which scores of persons were injured. the fight between the two towns dates back several years, and the courts have been appealed to. The slow process of law was not satisfactory to the Rock Islanders, so they determined to take

matters into their own hands.

To-day a party was made up in the city by the Mississippi, and plans were made for a raid on the Fulton headquarters, with the object of forcibly taking possession of the books, records, etc., of the order, and removing the office of Head-Clerk Hawes to Rock Island. A train was chartered, consisting of three coaches, a baggage-car, and two box-cars, and the invaders were soon on their way to Fulton. The inhabitants of the latter town were forewarned, however, and made ready to give the uninvited guests

rollon. The inhabitants of the latter town were forewarned, however, and made ready to give the uninvited guests a warm welcome. Lines of hose were laid to the point where it was thought the Rock Islanders would most likely disembark. The arrival of the train was the signal for hostilities to begin. There was intense feeling on both sides, and a great variety of weapons, the combination resulting in the following cagualties: Will Bennett. City Marshal of Fulton, head cut; believed to be fatally hurt. W. H. Flanagan, head badly cut. James Carrier, head cut. Ed. Barre, head and arms injured. Chris. Miller, Lyons, Ia., head cut. P. J. Casey, Moline, Ill., head badly injured. A score of others were more or less bruised and cut.

The free fight lasted for an hour or more, rocks, clubs, and missiles of every description being wielded industriously by the opposing forces. The Fultonites inally got the better of the fight, and Deputy-Sheriff Farley effected the arrest of Head-Atterney Johnson, of the Modern Woodmen, one of the Rock Islanders was torn up by the Fultonites, the latter evidently alming to cut off the retreat of their enemies. A large force of peace officers have been sworn in, and as the invaders, or most of them, are still in Fulton, there is great difficulty in preventing a renewal of the trouble.

The action of the Rock Island people was prompted by a decision of Judge Gast's, rendered at Cambridge to-day, dissolving the injunction which has prevented the removal of the irradiguarters from Fulton.

The Rock Island delegates arrived at 6:46, with 675 men, and immediately proceeded to the offices of the Woodmen's order. They were met with resistance from the start, but succeeded in getting the bulk of the records out to the train.

The Fultonites, in the mean time, had called out the Fire Department, and sounded a general alarm, and, with the augmented crowd, succeeded in tearing up the track in front of the locomotive. It was then attempted to back the train, whereupan the Fulton people tore up the trac
